

10TX by NEXTOLOGIES

NOCHE UFC

A REMI PRODUCTION CASE STUDY

28 LOW-LATENCY VIDEO FEEDS

- Over 10TX AirX Fiber, using Nextologies' Q-frame encoding technology, 10TX delivered 28 paths of video among three locations.
- Nextologies' Q-frame encoding technology enabled delivery at 121 ms per direction.
- Created point-to-point data tunnels for EVS, comms, and scoring with one-millisecond latency.
